

KEVIGS Sixth Form Enrichment Options 2018/19

NAME:

YEAR GROUP:

ACADEMIC TUTOR:

Please indicate below (✓) an option that suits your needs and fits within your current timetable.

The Sixth Form Team are aware that there are a number of students that have lessons timetabled on a Wednesday afternoon. If you would like to participate in a work experience opportunity at another time then please see your Head of Year to discuss the issue.

If there are any alternative options that you would like us to consider then please see Mr Aicken.

Enrichment Options (Week A):	Selection (✓):
Work Experience	
Volunteering	
TED Talks	
MOOC (Massive Open Online Courses)	
Clubs & Societies	
Additional Academic Studies:	
Classical Civilisation	
Games Options (Week B):	Selection (✓):
Sports Hall Activities	
Football	
Netball	
Fitness	

All students will be required to complete a KEVIGS Enrichment Record Card. This will be used by you to record the number of Enrichment hours that you have completed throughout the Year. Fifteen hours is the minimum that sixth-form students are expected to achieve within any academic year.

Record cards will need to be signed by the supervising member of staff to indicate that you have participated within your chosen activity. Miss Mackett receives a weekly register from the Meridian and Kenwick gyms; please see her to get your record card signed.

All student record cards will be collected in by Wednesday 3 April 2019.

- Sports Hall:** There will be a number of activities (Badminton, Basketball, Table Tennis, and Volleyball) that will be available during **Periods 4 & 5** on a **Week B**. Please let the PE Department know your preferences at the start of the session.
- Football:** This is a great opportunity to continue representing the school team as well as playing socially. The 1st XI will have a number of league fixtures and the social team will have friendly fixtures (if there is interest). When there is no fixture, you will have the opportunity to train collectively.
- Netball:** A great opportunity to continue representing the school team as well as play socially. The team will be entered into the District tournament which could lead to the County final. Training will be based at school and will involve a series of drills and games (a very chilled and relaxed atmosphere).
- Fitness:** This offers the opportunity to develop your aerobic and anaerobic fitness using a variety of training methods. Confirmation of what activities you will be doing will be made after discussion with the group. All abilities and levels of fitness welcome.
- Work Experience:** This is a perfect opportunity to obtain some real-life experience within the field of work that you see yourself in after school/university. However, this not an opportunity to get an extra shift at your part-time job or indeed do an extra shift for a family business.
- Volunteering:** This is a great opportunity to show your independence, empathy and communication skills whilst enhancing your UCAS application and personal statement, especially if you consider yourself to be a Medic, Vet and/or Dentist applicant.
- TED Talks:** The Sixth Form realise the importance of some reflection time and would encourage you to come along to these talks which will be held weekly in N1. There will be a variety of themes each week that will provide insight into a plethora of academic interests.
- MOOCs:** Mr Aicken will be advising you about **Massive Open Online Courses** within the first few weeks of term. These are a great way to increase your general knowledge and also enhance your CV. MOOCs are time dependant and you may be restricted by the MOOCs that are available during term time. This may be a good option for those who have lessons during a Wednesday afternoon on a Week A or B. Completion of at least 1 MOOC per term will be the minimum requirement for this option.
- Clubs/Societies:** Establishing a society of like-minded individuals is a terrific addition to anyone's CV/UCAS application. There are a few conditions that come with starting your own KEVIGS Club/Society but these are designed to keep your group focussed and motivated. Mr Robertson will explain this idea further during the first Games & Enrichment meeting in September. To get you thinking here are some ideas:

History	Science
Maths	Vets & Medics
KEVIGS Recycling	Philosophy
Norton News (Journalism)	Politics
KEVIN (King Edwards Volunteering Initiative & Networking)	Jazz

And here are the conditions:

1 x Talk (Invited speaker)/1 x organised competition/performance/event per term
1 x Single-sided A4 publication per term
1 x Assembly to the lower and middle school year groups
Advertising and promotion undertaken by the club/society
Nomination of staff 'Mentor'

Additional Academic Studies:

Classical Civilisation will run as a one year course with students taking an exam at the end of Yr12. It is hoped that subjects offer an intellectual, physical and creative outlet for students. Lessons will take place during **Period 5** on a **Wednesday Week B**. Students will also be encouraged and **expected** to carry out **independent learning** beyond the classroom. Classical Civilisation does have some minimum entry requirements:

KEVIGS Sixth Form students must complete a minimum of 15 hours of extra/super curricular activities per academic year.
