

KING EDWARD VI GRAMMAR SCHOOL

Encouraging Excellence Nurturing Talent in every individual

Thursday 6th December Sports Hall Consultation Evening, 5pm-7pm Newton Hall

New Sports Hall and Elite Performance Centre

New Sports Hall Bid Consultation

Thursday 6th December 5pm – 7pm Newton Hall.

King Edward's current activity hall was opened in 1989 when the school numbered just 580 students. The day it was opened it was obvious to all that a two court badminton activity hall was inadequate for 580 students. Today with 900+ students on roll and projections to grow to a 1000 students by 2023 it is well past time for the school to have a Sports Hall.

The provision of a new five court sports hall with indoor and outdoor changing rooms; fitness suite and aerobics/dance studio will give the school much needed curriculum space but more importantly will provide wet weather spaces on site.

More than this these facilities will provide space to support our extensive extra-curricular programme and will provide much needed indoor space to enable these activities to actually run, grow and flourish. Most important of all it will enable the PE Department to expand the curriculum beyond the traditional.

More details including the plans and other pictures can be seen on our website including a consultation survey for parents and a separate survey for residents in our local community on Horncastle Road, Edward Street and Crowtree Lane.

www.kevigs.org/sportshallbid

Our bid will be submitted to the DfE on the 14th December and we find out in March if we have been successful. If we have been successful, then building would commence in the Autumn Term of 2019 with a scheduled opening date for July 2020.
